

Another commonly accepted magical practice explained why Clive had to stand outside the pub on match day

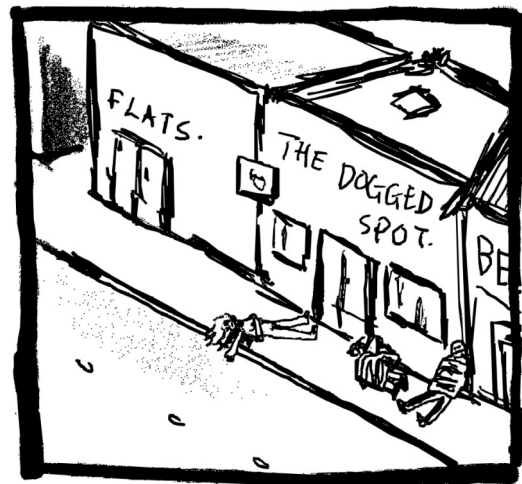

After it was noted that they always scored whilst he was out smoking

When this system started failing, they concluded it was because Clive was trying to peer in

Consequently he was tied up and blindfolded outside for the rest of the season.

Eventually this too stopped working, and fan research was conducted at the rival team's pub

It was discovered that their success likely stemmed from having TWO tied-up, blindfolded fans outside the joint - plus a sacrificed virgin.
